About Antelco

Antelco Group of Companies

Antelco promotes a “quality” culture throughout the company, reflected in all facets of the organisation, including customer service, sales and marketing, ordering, manufacture, and delivery. This culture has seen the Antelco Group expand, pairing with companies that share its drive for quality.

The Antelco Group includes Lincoln Plastics, a leading toolmaking and plastic injection moulding company based in Adelaide, South Australia, and Dawn Industries, worldwide leaders in the design, manufacture, and distribution of high performance water system components, tools, and replacement products for system professionals.

Micro Irrigation Experts

Antelco produces quality irrigation products for home owners, landscapers and agricultural markets to promote responsible water use worldwide.

Experienced engineers, product designers and marketers, with a wealth of industry knowledge, create quality and cost-effective micro irrigation products. All products undergo rigorous field testing and quality control measures so that any faults or imperfections can be engineered out, resulting in a fault-free, quality product worthy of the Antelco name.

Quality, Safety, Environmental

Antelco is dedicated to adhering to internationally recognised industry standards for quality, safety, and environmental practices.

Quality performance is one of the cornerstones of Antelco's culture, extending to the company's dedication to quality, customer satisfaction, and continuous improvement.

With ISO 9001:2015 Quality Management System certification, Antelco demonstrates an unwavering commitment to delivering products and services of the highest quality standards, thereby achieving its strategic objectives and delivering value to stakeholders.

Antelco is committed to ensuring a safe and healthy workplace for all. Our achievement of ISO 45001:2018 Occupational Health and Safety Management System certification underscores our diligence to implementing rigorous safety management practices and adhering to the highest standards of occupational health and safety. It showcases our firm dedication to prioritising the wellbeing of our employees and fostering a safer working environment.

Preserving the planet for future generations is a fundamental commitment of our company. The ISO 14001:2015 Environmental Management System certification serves as a testament to our dedication to environmental stewardship and sustainability. It underscores Antelco's steadfast commitment to minimising our environmental footprint and upholding

Putting Water Where it Counts!®

Shrubbler® 360° & 180° Adjustable Flow

The original Shrubbler® with flow adjustment. Flow and coverage can be altered by rotating the click indexed cap.

Features

- Fingertip flow control with shut-off option.
- Spike models anchor Shrubbler® at the plant.
- Spike models suit 4 mm ID micro tube.
- Barb model for direct attachment to micro supply tubing.
- 4 mm threaded model for installation into Rigid Risers, Asta® Stake Adaptors and Micro Stakes.
- 1/2" threaded model for riser pipe installations.

PotStream® Adjustable Flow

The PotStream® is a side mounted watering solution for pot plants and containers. The adjustable gentle stream pattern minimises soil erosion and the variable flow rate and pattern radius allows for use in various pot sizes.

Features

- Variable flow rate and pattern size suits pot diameters of 200 mm and upwards.
- Flat stake slides easily inside pot wall.
- Suits pot wall thickness up to 40 mm.
- Side mounted installation for neat location of the supply tube.
- Combine with Tidy-Bow™ Clip On Elbow for neat installations.
- Low application rate and gentle stream pattern.
- Easily adjustable knob for varying spray patterns.
- Available as standard PotStream® or pre-assembled with 600 mm tube and self piercing adaptor.

Agri Drip™ Classic & Pressure Compensating

A sealed turbulent flow path dripper that provides consistent and uniform performance at an economical price.

Features

- Agri Drip™ classic with colour coded bases
- Positive barb connection to suit 4 mm ID micro tube or direct connection to supply tubing.
- Classic for rainwater tanks and low pressure systems.

Applications

Horticultural tree and row crops, vineyards and landscape.

Asta® Drip Spike Pressure Compensating Emitter

PC emitter with a sealed turbulent flow path and an anchoring spike to deliver water direct to the plant root zone.

Features

- Three colour-coded flow rates: 2 lph (Red), 4 lph (Black) & 8 lph (Green).
- Turbulent flow path & self-flushing cleaning action at low pressure.
- Outlet includes insect baffle to minimise blockages.
- Inlet barb has built-in filter.
- Low manufacturing variation (Cv) to provide high performance (ISO 9261).
- UV stabilised materials for long life.

SPEC Drip™ Pressure Compensating Emitter

NEW

A dripper with a self-piercing inlet barb for easy installation and a barbed outlet for secure connection of 4mm ID offtake tubing. The sealed turbulent flow path and diaphragm ensure uniform flow rates across a wide pressure range.

Features

- Self piercing inlet barb with colour coded bases.
- Self-flushing cleaning action at low pressures.
- Insect baffle to reduce risk of blockages.
- SPEC Drip™ available as an assembly with tube and drip stake for connection to 3 & 4 mm ID off-take tube.
- Inlet barb has built-in filter.
- UV stabilised materials for long life.
- Resistant to common agricultural chemicals & fertilisers.
- Antelco Drip Mate® Tool aids installation without pre-piercing.
- Low manufacturing variation (Cv) to provide high performance (ISO 9261).

CETA® Pressure Compensating Emitter

A take apart pressure compensating dripper incorporating a turbulent flow path and diaphragm for uniform flow rates over a wide range of operating pressures.

Features

- Take apart for easy inspection and cleaning.
- Self-flushing action at low pressure.
- Anti-insect baffle to reduce risk of blockages.
- Spike & In-Line Spike models to anchor CETA® at the plant root.
- 4 mm barbed inlet dripper with colour coded bases.
- Constructed of high quality UV, chemical & fertiliser resistant materials.
- Low manufacturing coefficient of variation (Cv) provides high performance (conforms to ISO 9261).

Shrubbler® 360° Pressure Compensating

PC emitter that provides a fixed diameter over a wide range of operating pressures. Gentle stream action with uniform coverage for all emitters on the same supply tube.

Features

- Pressure compensating operation maintains diameter of throw over a wide range of inlet pressures.
- Take apart for easy inspection and cleaning.
- Coloured cap for easy identification.
- UV stabilised materials for long life.
- Resistant to common agricultural chemicals & fertilisers.

Applications

Pots, planter boxes, balcony, patio and landscape

Pinch Drip™ Pressure Compensating Emitter

A sealed turbulent flow path PC dripper incorporating a diaphragm that maintains uniform flow rates over a wide range of operating pressures. Low profile design to minimise risk of dislodgement from supply tubing.

Features

- Low manufacturing coefficient of variation (Cv) to provide high performance (conforms to ISO 9261).
- Colour code bases.
- Self-flushing cleaning action at low pressures.
- Inlet barb has built-in filter.
- UV stabilised materials for long life.
- Resistant to common agricultural chemicals & fertilisers.
- Insect baffle to reduce risk of blockages.
- New Drip Mate® Tool aids installation (see page 74).

Applications

Vineyards, orchards, row crops and landscape.

Micro Sprays: Caps & Bases

A large variety of flow rates and spray patterns are achievable when the range of caps and bases are assembled into two piece jets.

Features

- Caps available in eight spray patterns.
- Colour coded bases.
- Jet assemblies made to order.
- Caps and bases can be ordered separately.

Applications

Assemblies suit garden bed watering and landscaped areas.

Accessories: Asta® Stake, Rigid Riser and Micro Stake.

Spray Jets

Single piece Spray Jet for landscape watering.

Features

- Winged base with 'Quick' thread for easy installation.
- No tools required.
- Choice of 360°, 180° or 90° spray patterns.
- Four colour coded flow rates.

Applications

Home and landscaped gardens and horticultural applications.

Accessories: Asta® Stake, Rigid Riser and Micro Stake.

Asta® Stake Assembly

Micro Stake with Off-take tube

* Refer to pages 72 & 73 for stake information

CFd® DownSpray

The patented C-Frame DownSpray is a 360° spray jet that distributes water evenly across the wetted area, encouraging full root growth by delivering water and fertiliser over a larger surface.

Features

- 45° down-spray pattern provides consistent diameter across varying inlet pressures, making the CFd® ideal for pot watering
- ON/OFF quick shut-off clip
- Engineered tubing for maximum durability and flexibility in rugged environments
- Plant stem protection
- Slimline stake to minimise root damage
- Self-piercing adaptor for quick, easy installation into lateral tubing
- Adjustable diameter by raising or lowering stake height
- Six colour-coded nozzles for easy flow rate identification
- “Quick” thread inlet with sealing barbs
- UV stabilised for long life

Applications

Nurseries, tree lots, pot plants, home and landscaped gardens.

CFa AgSpray™

A high performance 360° 12-stream Hi-Lo open spray jet designed for agricultural irrigation systems. C-Frame with no moving parts for long life in harsh conditions.

Features

- Colour coded for flow rate identification.
- 26° High x 12.5° Low Trajectory
- Robust proven C-Frame design.
- No moving parts.
- “Quick” thread inlet with sealing barb.
- UV stabilised materials for long life.
- Stake assemblies includes self piercing adaptor for easy installation in lateral tubing.

Frame Jets™

Low maintenance open spray jets which excel in performance and reliability. Deflector snaps on to frame to temporarily restrict spray diameter for young trees.

Features

- Open frame and spray plate.
- No moving parts.
- Choice of 7 spray patterns and 8 flow rates.
- Colour coded nozzles for flow rate identification.
- 'Quick' thread for easy insertion into tubing, Rigid Risers or micro stakes.

Applications

Specifically designed for orchards, vineyards and horticultural crops. **Accessories:** Rigid Riser and Micro Stake.

Rotor Spray™ Mini Sprinklers

Durable and reliable with excellent distribution uniformity. Vari-Rotor Spray™ can be adjusted to alter flow and coverage.

Features

- C-Frame design for uniform distribution.
- Rotor Spray™ has a 19° trajectory and Inverted Rotor Spray™ has a -19° trajectory when installed in an inverted position.
- Full flow flipper suspended between two bearings for reliable performance.
- Inverted model incorporates special khaki coloured flipper with dust cover to protect bearing.
- Colour coded nozzles.
- 4 mm thread for installing into Rigid Risers, Asta® Stake Adaptor, Micro Stake and 1/2" micro threaded adaptors.
- UV stabilised materials for long life.
- Stake assemblies includes self piercing adaptor.

Applications

Landscape areas, home gardens, nurseries, and horticultural applications. Inverted Rotor Spray™ ideal for overhead greenhouse and nursery watering.

Rotor Rain® Mini Sprinklers

Low trajectory larger droplet mini sprinkler available in a range of flow rates and thread types.

Features

- C-frame design for high distribution uniformity.
- Full flow flipper suspended between two bearings for reliable performance.
- 23° trajectory
- Colour coded nozzles to identify flow rates.
- Break-off spray deflector.
- UV stabilised materials for long life.
- Available in 3/8" or 1/2" male threaded inlets.
- Stake assemblies includes self piercing adaptor for easy installation into lateral tubing.

Applications

Vines, row and tree crops such as nuts, citrus and apples. **Accessories:** Rotor Stakes and adaptors.

Rotor Rain® PLUS

A high performance and featured range of mini sprinklers with a profiled double frame to maximise water distribution.

Features

- Anti-insect spinner design.
- Colour coded bases.
- Easy turn field disassembly.
- Long field life bearing and spinner.
- Suspension hole for trellis applications.
- Standard spinner 21° trajectory.
- Snap-off deflector tab for young trees.
- 3/8" male thread suits stakes & adaptors.
- 1/2" male thread suits riser pipes.
- UV stabilised materials for long life.
- Stake assemblies includes self piercing adaptor.

Rotor Rain® Plus with Deflector 3/8" Male Thread

Rotor Rain® Plus 1/2" Male Thread

Applications

Orchards, row crops, smaller vegetable plots, greenhouses and nurseries.

Rotor Rain® PLUS

Pressure Compensating

Ensures even sprinkler performance along lateral lines, delivering uniform water, fertiliser, and chemical application over long rows and uneven terrain.

Features

- Pressure compensating for consistent output with varying inlet pressures.
- Aerofoil frame profile for strength and distribution uniformity.
- High grade silicone diaphragm for long service life.
- Anti-insect spinner design.
- Easy turn field disassembly.
- Long field life bearing and spinner.
- Suspension hole for trellis applications.
- Standard spinner 21° trajectory.
- Snap-off deflector tab for young trees.
- UV stabilised materials for long life.

Rotor Rain® PLUS

Accessories

A range of accessories to install Rotor Rain®, Rotor Max™, and other industry standard 3/8" threaded micro sprinklers.

Sprinkler Adaptor

Suited for suspended trellis wire installations, the sprinkler adaptor is available in 5 mm, 10 mm, and 13 mm barb sizes, or pre-assembled with 4 mm ID tube in 600 mm, 900 mm, and 1200 mm tube lengths.

Rotor Stake™

Designed for securing 3/8" threaded micro sprinklers. The stake includes a retaining hole to keep tube firmly in place near the stake. The tube piercing point allows for hole punch installation.

Rod Stake Sprinkler Adaptor

Ideal for 5 mm OD fibreglass or steel rod applications, available in 5 mm and 10 mm barb sizes.

Socket Driver for Rotor Rain® Plus

Using a low speed torque controlled drill, simply slip the aluminium Socket Driver over sprinkler heads for easy installation into threaded stakes and risers.

Collar Pipe Sprinkler Adaptor

Designed for 20 mm uPVC or Galvanised riser installations (26.7 mm OD), this adaptor is available in 5 mm, 10 mm, and 13 mm barb sizes.

Rotor Rain® Plus 180° Deflector

Easy snap-on, field-fitted deflector attaches to the Rotor Rain® Plus sprinkler frame, creating a half-circle 180° spray pattern. Ideal for end of sprinkler rows, road edges, boundary fences, and driveways.

Rotor Rain® Plus 180° Deflector Black

Rotor Rain® Plus 180° Deflector Red

Rotor Max™ Midi Sprinklers

Robust and reliable “spinner” sprinkler for use above and below plant foliage and with two trajectory options. Excellent sprinkler distribution patterns and performance.

Features

- Dual outlet spinner enhances performance.
- Standard model has a 25° trajectory with black coloured spinner.
- Inverted model has a 0° flat trajectory with khaki coloured spinner.
- Range includes two low flow nozzle sizes (2.0 mm & 2.4 mm).
- Easily taken apart for servicing.
- UV stabilised materials for long life.

Rotor Max™ Deflector

- Easy snap-on field fitted 180° Deflector.
- Directional ribs distribute the water evenly over the 180° pattern.
- Water is redirected by the cupped spray plate providing improved application uniformity over flat plate deflectors.

Applications

Greenhouses, vegetable row crops and under tree watering. **Accessory - Rotor Max™ Deflector:** Part circle operation for road edges, driveways and end of sprinkler rows.

REUZIT® Recycled Water Products

ReuZit® range of products designed for domestic and small commercial Aerobic Treatment Systems (ATS) and recycled water systems.

Features

- Low operating pressure range ideal for recycled water sump pumps.
- ReuZit® FlatSpray and ReuZit® Sprinkler have a 0° trajectory, and ReuZit®
- ReuZit® DownSpray has a 45° down spray to reduce the effect of wind.
- 400 mm flexible off-take tubing with easy insert self piercing adaptor.
- Robust stake with push point for inserting into soil.
- Lilac coloured components for easy identification of recycled water.
- All ReuZit® emitters have a large orifice to reduce risk of clogging.
- Sprinkler Assembly with 13 mm barbed take-off to suit low density poly tubing.

Applications

Distribution of aerobically treated water under trees, shrubs and ground covers in mulched areas.

REUZIT® Purple Back® Valves

On/off device to control the water flow in low pressure irrigation systems.

Features

- Available in male thread with 1/2", 3/4" or 1" inlets
- Simple on/off operation and straight through flow.
- Operating pressure range up to 300 kPa.
- Purple Back® lilac cap easily identifies recycled water - not for human consumption.
- UV stabilised materials for long life.

Applications

Used for flushing irrigation lines and manual on/off flow control of submains and laterals. Ideal for vineyards, orchards, nurseries, greenhouses, landscaping, and home gardens. Threaded valves suitable for rainwater, gravity-fed, or pressurised systems up to 300 kPa.

Green Back® Valves

On/off device to control the water flow in low pressure irrigation systems.

Features

- Available in male thread with 1/2", 3/4" or 1" inlets
- Simple on/off operation and straight through flow.
- Operating pressure range up to 300 kPa.
- Green Back® cap for standard irrigation applications.
- UV stabilised materials for long life.

eZyvalve™4

A compact valve box with 4 solenoid valves, available in 24 Vac or 9 Vdc latching models. The eZyvalve™4 offers a simple, reliable way to water micro irrigation systems and small to medium lawns.

Features

- Pre-assembled with no internal pipe connections.
- High strength UV stabilised materials.
- Includes cable seal and wire connectors.
- Water, dust and pest resistant.
- Textured non-slip lid with o-ring seal and stainless steel screws.
- 3/4" threaded inlet and outlet connections.
- Easy to connect to existing garden taps using Braided Hose accessory.

Pressure Regulators

A range of low flow pressure regulators designed to stabilise outlet pressure and optimise emitter performance in micro irrigation systems.

NEW

Features

- High-strength, chemical-resistant ABS construction for durability.
- Stainless steel spring for long wear.
- Three outlet pressure options: 70 kPa, 100 kPa or 175 kPa.
- 3/4" BSPF inlet x 3/4" BSPM outlet.
- Pressure regulators have minimal moving parts and a pressure protection mechanism to respond to system back pressure.

Applications

Drip, spray and sprinkler systems in landscape applications. Ideally connected to taps, valves, tap timers and irrigation valves in a manifold system.

Pressure Regulator
175 kPa

Ordering Information - Pressure Regulators

Type	Order Code	Pack Quantity	Packs Per Carton	Carton (kg)
3/4" BSPF Inlet x 3/4" BSPM Outlet - 70 kPa	73035	10	42	14.5
3/4" BSPF Inlet x 3/4" BSPM Outlet - 100 kPa	49505	10	42	14.5
3/4" BSPF Inlet x 3/4" BSPM Outlet - 175 kPa	49535	10	42	14.5

* Operating Pressure 0 - 690 kPa
* Flow Range 0.4 - 30 lpm

Specifications

Dimensions		Operation	Connection Type	
LENGTH	68 mm	OUTLET PRESSURE 70 kPa 100 kPa or 175 kPa	INLET	3/4" BSPF
WIDTH	34 mm		OUTLET	3/4" BSPM
WEIGHT (approx.)	31 g	FLOW RANGE	0.4 - 30 lpm	

Installation

- The Pressure Regulators must always be installed downstream from all shut-off valves, regardless of the application.
- Regulators should be installed with the vent hole unobstructed.
- Do not use sealing compound (solvent cement). If needed, teflon tape may be used to seal for leaks.

Filters

Screen Filters trap foreign particles in the water and reduce risk of clogging of emitters.

Features

- In-Line model with barbed inlet and outlet.
- Snap-On model for direct connection to standard tap adaptors.
- 80 mesh screen filter.
- Easily taken apart for cleaning.
- Effective compact filters with minimal flow losses.

Applications

For low pressure micro irrigation systems.

Tap Fittings

A range of quick connect fittings specifically designed to connect polyethylene irrigation tubes to taps and Snap-On fittings. Connect to tap adaptors, tap timers, taps, manifold and multi outlet distributors.

Features

- Simple to use ergonomic design.
- Reducing Bush Assembly universal fittings to suit 3/4" or 1" taps.
- Tap Adaptor suits Snap-On connections.
- Santoprene Washer included in Nuts & Tails, Tap Adaptors, Reducing Bush Assemblies and Blank Nuts.
- UV stabilised materials for long life.

Applications

Home gardens and landscaping applications.

Micro Fittings

A range of fittings and adaptors to use with quality micro tubing in low pressure irrigation systems. A range of sizes suit various tube configurations.

Features

- Single barb configurations for connecting to micro or supply tube.
- “Quick” thread or 4 mm 10-32 UNF thread for connecting to Rigid Risers or Micro Stakes.
- A range of adaptors to suit various configurations.
- New Self Piercing 4 mm Joiner for easy insertion into lateral tubing.

NEW

Applications

Home gardens, landscaping, aquariums and glasshouses.

Micro Fittings

A range of repair plugs, valves, and micro tee to use with quality micro tubing in low pressure irrigation systems. A range of sizes suit various tube configurations.

Features

- Vari-Flow™ valves simple on/off operation controls water flow in micro irrigation systems.
- Tidy Bow™ Clip On Elbow clips over 7 mm OD micro tubing removing the need for cutting tube and additional micro fittings. Redirects tubing without kinking tube or flow restriction.
- Goof Plugs to repair wrongly punched holes.
- Micro tee connects 4 mm ID micro tube to lateral line.

Applications

Home gardens, landscaping and glasshouses.

Xpando® Take-Off Fittings

Antelco Xpando® Take-Off Adaptors are a proven method of connecting low pressure irrigation tubes and drip lines from HDPE and uPVC pipes and sub mains with a Capo® Grommet.

Features

- Easy installation saves time and costs.
- Innovative Xpando® inlet with collapsible barb prevents pullout and reduces grommet damage during the installation process.
- The Capo® Grommet's internal step combined with the Xpando® interference barb holds the off-take firmly in place.
- Threaded Xpando® Take-Off Directors with a 1/2" BSPM thread allow direct connection of sprinkler risers to HDPE and uPVC lateral pipework.
- For reliable sealing, use precision Xpando® Drill Bits to create clean, correctly sized holes.
- UV stabilised materials for long life.

Xpando® Director	Min. ID	Min. Wall Thickness	Max. Wall Thickness	Capo® Grommet	Hole Size Drill Bit
					
Xpando® Director 19 mm	50 mm	1.5 mm	6.0 mm	19 mm	22 mm

Interference between inlet barb and grommet causes grommet to expand and seal creating a reliable connection

Applications

Agricultural, horticultural, vineyard and landscape applications. Lateral Take-Off fitting for sprinkler riser installations. Provides a more economical method than the traditional tapping saddle method.

Take-Off Fittings 25 mm

A secure and proven method for connecting 25 mm I.D. LDPE to sub-main lines.

Features

- Cost-effective alternative to traditional saddles or tapping bands
- Curved double-flanged take-off grommet for enhanced sealing
- Reduces installation time and labour costs
- Suitable for use with PE and PVC
- 28 mm inlet × 25 mm take-off
- Use a precision 33 mm drill bit to create clean, correctly sized holes for reliable sealing
- PE & PVC compatible

Applications

Connecting LDPE or dripline to PE or PVC sub-main **Accessories:** Stainless Steel Clamp

Take-Off Fittings

Antelco Take-Off fittings provide an easy to install method of connecting low pressure irrigation tubing and drip lines to LDPE supply lines.

Features

- Reduce time and installation costs.
- 8 mm x 13 mm elbow suitable for installation from 19 mm LDPE tube.
- 10 mm inlet fittings suitable for installation from 25 mm LDPE tube.
- Take-Off elbows are ideal for installing drip lines at any angle to the supply line ensuring parallel lateral lines in sub surface or above ground drip systems.

Applications

Sub surface and above ground drip irrigation systems and landscape watering applications.

Ordering Information - Take-Off Fittings

Type	Order Code	Pack Quantity	Packs Per Carton	Carton (kg)
Take-Off Joiner 10 mm x 13 mm	46405	25	120	11.6
Take-Off Joiner 10 mm x 14 mm	46395	25	108	12.1
Take-Off Elbow 10 mm x 13 mm	46415	25	90	12.0
Take-Off Elbow 10 mm x 14 mm	46435	25	85	12.0
Take-Off Elbow 8 mm x 13 mm	46425	25	100	12.4

Take-Off Elbow Installation

- Antelco recommends a good quality hole punch
- Hole size is to be 2 mm less than diameter of inlet barb

Directors, End Plugs & Saddles

Used with low density polyethylene (LDPE) tubing in low pressure irrigation systems.

Features

- Directors adapt tubing to valves and female threaded fittings.
- End Sleeves allow tubing to be flushed and reconnected.
- End Plugs terminate tube ends.
- Saddle Clamps used to secure tubing.
- Compatible with Australian and International tube sizes.
- UV stabilised materials for long life.
- Operating pressure range up to 300 kPa.

Applications

Home gardens, landscaping and commercially installed irrigation systems.

Double Barb DB Fittings™

The DB range of purpose designed quality acetal fittings provides high retention in low pressure poly (LDPE) tubing for long-term reliability of connections.

Features

- Sharp edged barbs create reliable sealing.
- Engineering grade UV stabilised acetal plastic for increased strength and long service life
- Operating pressure range up to 300 kPa.
- The space between double barbs allows placement of Antelco Ratchet Clamp's or Stainless Steel Clamps for extra security.

Applications

Vineyard and other agricultural applications. Ideal for trellis and suspended irrigation systems.

Brown Dripline DB Fittings™

Brown Double Barb DB Fittings™ are acetal fittings for high retention and long-term reliable connections in low-pressure (LDPE) tubing. The 14 mm brown fittings are ideal for 16 O.D. brown dripline.

Features

- Double barb for increased retention.
- Operating pressures up to 300 kPa.
- Sharp-edged barbs for secure connection.
- Engineering grade UV stabilised Acetal plastic for long life.
- The space between double barbs allows placement of Antelco Ratchet Clamp's or Stainless Steel Clamps for extra security.

Applications

Suitable for sub surface and above ground drip irrigation systems and landscape applications. Suitable for vineyards, orchards, nurseries and commercial landscapes.

Green Dripline ST Fittings™

Super Tough ST Fittings™ are manufactured from high strength engineering grade nylon to provide improved resistance to impact and loading in high stress installations.

Features

- Tapered entry on all barbed fittings for ease of installation.
- Sizes suit most popular dripline tubing; 17 O.D., 20 O.D. & 22/23 O.D. drip tubes.
- Models to connect 19 mm LDPE to popular drip line tubing.
- Operating pressure range up to 300 kPa.
- UV stabilised material for long field life.

Applications

Vineyard and other agricultural applications. Ideal for trellis and suspended irrigation systems. **Accessories:** Ratchet Clamps and Stainless Steel Clamp.

Stainless Steel Clamps

Stainless Steel Clamps are a compact range of clamps to suit all Antelco fittings. The innovative design allows one clamp to suit multiple tube sizes.

Features

- Stamped size for easy identification.
- Easy installation using a range of crimping tools.
- Robust interlocking design.
- Screwless one piece clamp.
- 7mm clamp width for secure seal.
- StepLess® design overlaps on the inner circumference of the clamp eliminating steps and providing a full 360° clamping force.

Pictured: 45725 (DB reducing tee)
20 mm OD dripline x 19 mm LD branch using a 24.1 clamp.
Two tube sizes, one clamp

Applications

Vineyards, agriculture & commercial irrigation and landscape applications. Suits lateral tubing, dripline tube and LDPE pipe.

Ratchet Clamps

Ratchet Clamps secure low density polyethylene (LDPE) tube to a wide range of fittings.

Features

- Smooth edges allow assembly by hand.
- Range of sizes to suit most (LDPE) tube connections.
- Sharp serrated teeth provide secure lock and firmly hold tube to fitting.
- Can be twisted and unclamped if required.
- Sizes available to suit dripline tubing.
- Improved ratcheting action and ability to fit to a trellis wire.
- Ratchet Clamps stamped for easy identification.

Applications

Home gardens and landscaping applications.

Hold Down & Locating Stakes

Hold Down & Locating Stakes for restraining and positioning tubing in micro irrigation systems.

Features

- Asta® Clip stake locates and secures micro polyethylene tubing (up to 7mm OD).
- Asta® Hold Down stake locates and secures polyethylene tubing (up to 22 mm OD).
- Locating Drip Stake dual barb connects 3 & 4 mm tubing allowing for accurate positioning directly above root zone.
- Locating Drip Stake is compatible with Antelco SPEC Drip™ or CETA® Barbed Outlet (see pages 12-15).
- UV stabilised materials for long life.

Applications

Securing drip and micro irrigation tubing in home gardens, landscaping, and agricultural installations.

Asta® Stakes & Rigid Risers

The Asta® Stake range provides a variety of solutions for stabilising the components of micro irrigation systems.

Features

- Asta® Stakes suitable for plasticised PVC and polyethylene tubing and Rigid Risers (6.9 mm OD).
- Asta® Stake Assemblies suitable for most micro spray and micro sprinkler installations with 4 mm threaded inlets.
- Asta® Stake Adaptor for rigid connection of emitters using flexible tube in Asta® Stakes.
- UV stabilised materials for long life.

450 mm w/ 1/2" MNPT Adaptor	50075	50	TBA	TBA

Applications

Asta® Stakes for rigid riser stability; Asta® Stake Assemblies for home gardens and landscape applications. Rigid Riser with 1/2" MNPT Adaptor suited for upright or inverted applications.

Micro Stakes & Wire Stakes

Micro Stakes and Wire Stakes position micro sprays in landscapes and orchards. Micro Stakes are available as a plain stake or fitted with differing lengths of tube to suit most installations.

Features

- Tube piercing point on each Micro Stake tip allows creation of holes in laterals, removing the need for a separate installation tool.
- Retaining hole in Micro Stake to align and support offtake tubing.
- Galvanised Wire Stake assembly incorporates shut-off clip to stop flow.
- UV stabilised materials for long life.

Applications

Landscape and agricultural orchard applications.

DripMate® Tool

The Antelco DripMate® Tool is a versatile micro irrigation tool for easy installation of Antelco drippers, emitters, tubing, adaptors, and stake assemblies.

Features

- Holds self-piercing joiners and supports joiner/tube assembly for insertion into laterals
- Integrated hole punch for creating holes in lateral tubing
- Leverage claw for removing barbed fittings
- Socket for gripping CETA® and PC Shrubbler® caps for disassembly
- Jet cap remover for cleaning micro spray jets

Scan to see how it works

Applications

For installing micro irrigation systems by home gardeners, contractors and professionals.

Ordering Information - DripMate® Tool

Type	Order Code	Pack Quantity	Packs Per Carton	Carton (kg)
DripMate® Tool	70025	1	15	1.2

Installing Emitters

Direct insertion into lateral with the new Antelco self piercing SPEC Drip™

Punch Holes in lateral before inserting a wide range of barbed emitters.

Installing Joiners & Tube Assmebly

Hold joiner for tube installation

Grip and support joiner/tube assembly while inserting into lateral

Removing Emitters

Leverage claw for removing barbed products from laterals

Installation Tools

Tools to assist in the installation of micro irrigation systems.

Features

- 2 in 1 Punch & Cutter is designed for cutting CVT and LDPE tubing up to 19 mm (21 mm OD) and punching holes into tubing for emitters and fittings.
- 2 in 1 Punch & Cutter comes pre-packaged in ready-to-hang retail pack.
- Socket Driver is an aluminum assembly tool for quick and easy installation of Rotor Rain® Plus and Rotor Rain® sprinklers into stakes and risers.
- Key Punch™ creates holes in tubing for inserting emitters. The sleeve assists in installing hexagonal based jets and the hole aids removal of jet caps for cleaning.

Applications

For installing micro irrigation systems by home gardeners, contractors and professionals.

Socket Driver for Rotor Rain® Plus

Socket Driver for Rotor Rain® Plus

Using a low speed torque controlled drill, simply slip Socket Driver over sprinkler head for easy installation into stakes and risers.

Cuts low density poly pipe and vinyl tubing up to 22 mm OD.

Punches holes into tubing ready for the insertion of emitters and fittings.

2 in 1 Punch & Cutter Retail Packaging

Key Punch™

KwikCut™ Professional Quality Cutters

Premium cutters delivering longer lasting performance and clean, straight cuts. Designed for polyethylene, PVC pipe, hose and tube, with high quality blades manufactured under exceptional quality control.

Features

- Sharper blades that hold their edge longer
- Clean, smooth right angle cut, eliminating chamfering of the pipe.
- Fiberglass reinforced nylon handles for durability and long life.
- SL Series has spring loaded action and safety close clip.
- Stainless Steel & PTFE Coated blade options.
- Replacement blades available.
- Pre-packaged in ready-to-hang, safe and secure retail pack.

T & SL Series 100

Cuts Rubber Hose, PE & PVC up to 25 mm.

T & SL Series 135

Cuts Rubber Hose and PE up to 40 mm, PVC up to 32 mm.

T & SL Series 200

Cuts Rubber Hose up to 50 mm, PE up to 40 mm, PVC up to 32 mm.

Saws

Durable saws engineered for longer life and straighter cuts. Heavy-duty Hand Saws cut large PVC and ABS pipe with precision, featuring fine-tooth blades for fast, clean results.

Features

- High-tension Hack Saw cuts straight or 45° and converts to a keyhole saw with blade storage.
- Mini Hack Saw and Rope Saw provide control for intricate cuts.
- Mini Hack Saw is lightweight with an ergonomic handle.
- Rope Saw cuts plastic, soft wood & rubber in hard-to-reach places.
- Hand Saws in 23cm (9"), 33cm (13") & 45cm (18").
- Replacement blades available.

Applications

For home gardeners, contractors and professionals.

KwikTap™

Professional Quality

Saddles

KwikTap™ Saddle Tees offer a tool-free, clamp-free self tapping solution for connecting to PE Pipe (PE 80/ PE 100).

Features

- Fast, Simple, Secure Installation
- No bolts, washers, nuts to lose or o-rings to perish
- No drilling required
- Installs in under 10 seconds
- Durable construction with reinforced nylon top and ABS base
- Compatible with swing fittings and traditional articulated risers
- Available in 1/2" and 3/4" outlet options

Installing KwikTap™ Saddles

- 

Simply open the saddle and snap it onto the pipe.
- 

While holding components in position, place the tap onto the saddle.
- 

Screw the tap onto the ratcheting lock until it can no longer turn.

Ordering Information - KwikTap™ Saddles

Description	Part Number	Pack Quantity	Units Per Carton
25 mm PE x 1/2" FPT	KT025C	10	200

32 mm PE x 3/4" FPT	KT032D	10	200

- Suitable for PN8 - PN16 (irrigation only)
- Not suitable for mains prior to master valve

Performance Chart

Flow Rate	Quick Burst Test
51.48 lpm @ 275 kPa	2702 kPa @ 62 seconds - The KwikTap™ fitting did not fail

Applications

Rotors, spray bodies, swing/ drip connections & traditional articulated risers

KwikAdapt™

Professional Quality

KwikAdapt™ fittings provide a quick and reliable way to connect Polyethylene Pipe to Swing/Drip tubing with a single-piece design.

Features

- The barb and spike combination keeps connections secure, even under pressure surges.
- Easy, fast installation.
- Universal thread sizes for versatile use.
- Strong barb & spike design ensures stability.
- Compatible with traditional funny pipe & 13 mm ID tube

Applications

Compatible with KwikTap™ Saddles for swing/drip connections.

1. Agreement

- 1.1 These Terms and Conditions of Trade apply to every supply of Products by Antelco to the Customer and will be incorporated by reference, deemed part of and govern all orders for Products made by the Customer and accepted by Antelco.
- 1.2 The agreement referred to in clause 1.1 records the entire agreement between the Parties about its subject matter. It supersedes, terminates and replaces all prior understandings, arrangements and agreements between the Parties.
- 1.3 The Customer acknowledges that:
 - (a) this Agreement is expressed in reasonably plain language, is legible, is presented clearly, and that when an explanation was sought by the Customer from Antelco of any content of this Agreement, either an acceptable explanation was offered or a recommendation was made to seek professional advice;
 - (b) it has had an opportunity to seek legal and commercial advice on the content of this Agreement;
 - (c) it has had an opportunity to negotiate for any deviations;
 - (d) this Agreement benefits both Parties and does not cause any significant imbalance in the rights and obligations of the Parties arising from this Agreement;
 - (e) this Agreement is reasonably necessary to protect the legitimate interest of the Party relying on this Agreement; and
 - (f) this Agreement does not cause detriment, whether financial or otherwise, to the Customer, if it were to be applied or relied by Antelco.
- 1.4 This Agreement prevails over any other future understandings, arrangements and agreements between the Parties, except to the extent that any of the preceding is a valid amendment to this Agreement and the Parties have specifically acknowledged that this is so in the amendment.

2. Prices

- 2.1 The current prices for the Products are set out in Antelco's schedule of pricing. These prices are exclusive of GST.
- 2.2 Antelco may change the price of any Product or Products at any time, provided that such price change is not applied to any order the Customer has made prior to the effective date of that price change.
- 2.3 For any Customer who places an order for Products to be shipped outside Australia on behalf of the Customer, a minimum order handling fee of \$50 (inclusive of GST) will apply to orders with a total amount payable of less than \$400 (inclusive of GST).

3. GST

- 3.1 This clause 3 applies if a Party makes a taxable supply (within the meaning of any law imposing GST) in connection with this Agreement for consideration.
- 3.2 Subject to this clause, the consideration payable by a Party represents the value of the taxable supply.
- 3.3 Subject to clause 3.5, the Party liable to pay for the taxable supply must also pay, at the same time and in the same manner as the value is otherwise payable, a further amount calculated by multiplying:
 - (a) the amount otherwise payable; by
 - (b) the GST rate for the time being.
- 3.4 If a payment to a Party under this Agreement is a reimbursement or indemnification, calculated by reference to a loss, cost or expense incurred by that Party, then the payment will be reduced by the amount of any input tax credit to which that Party is entitled on the acquisition of the supply for which that loss, cost or expense is incurred. The Party is assumed to be entitled to full input tax credits unless it demonstrates that its entitlement is otherwise prior to the date on which payment must be made by the other Party.
- 3.5 A Party's right to payment under this clause 3 is subject to a valid tax invoice being delivered to the Party liable to pay for the taxable supply.
- 3.6 If a person is a member of a GST Group references to GST which the person must pay and to input tax credits to which the person is entitled include GST which the representative member of the GST Group must pay and input tax credits to which the representative member is entitled.

4. Orders

- 4.1 Any quotation by Antelco does not constitute an offer to supply. A quotation is valid for the time specified in the quotation and if no time is specified, for 30 days only and shall expire thereafter if an order is not submitted within that time.
- 4.2 Orders must be placed by e-mail to Antelco. Special orders should be placed by contacting Antelco's Sales Department. Orders must include details of the Products' description, the quantity ordered, the price per item in dollars, the total price in dollars, the requested time for collection and such other information as Antelco may reasonably require.

- 4.3 If the Customer wishes to place an urgent order for shipment by air, the Customer must ensure that such an order is received by Antelco before 10.00am of the day of despatch. All such shipments are placed on behalf of the Customer and surcharges will apply. The Customer acknowledges that airbags are best restricted to 3 or 5 kilograms.
- 4.4 The Customer will be advised whether its order can be satisfied, and if so, the Customer will be so advised of pricing for the ordered Products and the anticipated delivery time.
- 4.5 No order may be cancelled by the Customer without the written consent of Antelco, irrespective of whether or not Antelco has advised the Customer of its acceptance of that order.
- 4.6 Back orders are treated as new orders. Back orders are invoiced when they are despatched. The Customer should advise Antelco in writing if it does not want any Product back ordered or if it wants any back order cancelled. Antelco will accept cancellation of a back order if it has not been despatched.

5. Payments

- 5.1 Subject to the Customer having an account with Antelco, and Antelco having issued a tax invoice to the Customer in accordance with this Agreement, the Customer must pay Antelco the invoiced amount within 30 days of the end of the month in which the Customer is invoiced. The Customer must do so by electronic funds transfer to the account nominated by Antelco in writing, or by bank cheque or by Mastercard or Visa debit or credit cards.
- 5.2 All Customers who:
 - (a) do not have an account with Antelco,
 - (b) has exceeded the credit extended by Antelco; or
 - (c) places an order for Products to be shipped outside Australia on behalf of the Customer must, subject to Antelco having issued a tax invoice, make an upfront payment of the invoiced amount.
- 5.3 Prompt payment is an essential term, and time is of the essence in relation to such payments, notwithstanding any prior indulgences. Antelco may charge interest at the Default Rate for each validly invoiced amount which remains outstanding. The Customer agrees to further indemnify Antelco for expenses incurred in recovering or attempting to recover any overdue amount. These amounts and expenses include but are not limited to legal fees, charges, disbursements and commissions on collections.
- 5.4 If the Customer disputes the validity of any invoice from Antelco relating to this Agreement, the Customer must provide Antelco with information that is reasonably required for Antelco to assess the Customer's claim.
- 5.5 The Customer must pay the undisputed portion of the invoiced amount in accordance with clause 5.1. The Customer must not withhold or set off any amount from or against any amount that is due to be paid to Antelco.

6. Delivery of Products

- 6.1 Antelco reserves the right to re-design Products which may cause changes to specifications of Products; and may do so without notice and without incurring any liability to the Customer in relation to Products ordered by the Customer. Antelco warrants that redesigned Products will be substantially the same as Products ordered by the Customer.
- 6.2 All ordered Products are delivered by Antelco to the Customer ex works. The Customer must arrange pick-up of such Products at times allocated by Antelco, and in any case, no later than 10 Business Days after the specified date of pick-up. An administration and storage charge may be applied by Antelco if the Customer fails to do so. The Customer will pick-up the Products at its own cost and risk.
- 6.3 At pick-up, the Customer will conduct a visual inspection of the Products. The Customer must inform Antelco of any apparent damage, and any discrepancy between the description of the Products in the accompanying packing slip and the Products, as well as any discrepancy between its order and the Products. If no inconsistency is found, the Customer will sign the accompanying consignment note,
- 6.4 Antelco will load the Products for the Customer, and will do so under the supervision and instruction of the Customer.
- 6.5 If the Customer becomes aware of any damage to the Products which was not apparent at pick-up and which is not caused by transportation or handling of the Products by the Customer, the Customer must notify Antelco immediately, and in any case, no later than 7 days after the Products' arrival at the Customer's site. If the Customer fails to do so, the Products will be deemed to be merchantable unless there is any latent defect that is not reasonably apparent on inspection.
- 6.6 References in this clause 6 and in clause 7.2 to the Customer apply also if the Customer arranges a contractor to pick-up the Products, and if Antelco does so on behalf of the Customer.

7. Title, risk, sale proceeds

- 7.1** Title in each ordered Product remains with Antelco until the Customer has fully paid all amounts owed by the Customer to Antelco, irrespective of whether such amounts relate to that Product.
- 7.2** Risk in each ordered Product remains with Antelco until it is loaded onto the Customer's vehicle, unless the Customer fails to pick-up the Product in accordance with clause 6.1, and if so, risk in the Product passes to the Customer on the 11th day after the specified date of pick-up for that Product.
- 7.3** To the extent that title in any Product remains with Antelco, the Customer hereby declares that it holds on trust for the sole benefit of Antelco; all sale proceeds from such Products. The Customer agrees to release such sale proceeds to Antelco in the manner requested by Antelco.
- 7.4** The Customer grants Antelco a registrable purchase money security interest as defined by the Personal Property Securities Act 2009 (Cth) over Products which are to be supplied to the Customer, and their sale proceeds as collateral for all amounts owed in relation to such Products in accordance with the terms and conditions recorded in Antelco's terms and conditions of credit.

8. Product defects and return of Products

- 8.1** Antelco warrants to the Customer that Products are:
 - (a) merchantable;
 - (b) free from manufacturing defects or faults; and
 - (c) fit for purposeif Antelco's specifications for handling, storage, installation, use, servicing and maintenance, if any, are all complied with, and the Products are not damaged in any way by the Customer, or by the Customer's Personnel.
- 8.2** Subject to clause 8.3 and in addition to the applicability of any Law, if any Product is not merchantable, is defective or is faulty, or is not fit for purpose, and this is caused by any act or omission of Antelco, Antelco will, within 12 months of a Consumer's purchase of that Product, either replace, or repair, or pay the cost of replacing the defective Product at its own cost. The defective Product must be returned to Antelco at the cost of the Customer or Consumer.
- 8.3** The Customer must comply with Antelco's specifications for handling, storing, using and maintaining Products. The Customer acknowledges that Products are designed for use in outdoor irrigation applications only which apply low pressure systems not exceeding 300 kPa.
- 8.4** If either Party wrongfully or improperly does anything or omits to do anything which has the effect or consequence of rendering the other Party liable to any third party or Consumer under any Law, then the Party whose act or failure to act has caused such liability indemnifies the other Party against all losses other than Indirect Losses, that it may incur. Notwithstanding the preceding, Antelco's liability to the Customer in relation to any supply, shall be capped to an amount equal to the amount received by Antelco from the Customer for that supply.
- 8.5** Products will be accepted for return by the Customer only if prior written approval has been obtained from Antelco. Products will not be accepted for return after 30 days from their date of collection. Products that are manufactured specifically to order cannot be returned. Returned Products must be undamaged, unsoiled and be in a saleable condition. All returned Products must include a copy of the original invoice and packing slip. All Products are returned at the cost and risk of the Customer. The Customer will receive a credit for the amount invoiced for Products that have been accepted for return by Antelco, less a handling fee of 15% of that amount.
- 8.6** This clause 8 survives the end of this Agreement.

9. Intellectual property

- 9.1** The Customer acknowledges and agrees that:
 - (a) Antelco retains all rights, title and interests in all Intellectual Property relating to:
 - (i) Products or parts of Products it manufactures;
 - (ii) any marketing, technical or other material it supplies to the Customer; and
 - (iii) its trademarks; and
 - (b) Antelco's suppliers retain all rights, title and interests in all Intellectual Property relating to:
 - (i) Products or parts of Products they manufacture; and
 - (ii) any marketing, technical or other material they supply to Antelco for redistribution; and
 - (iii) their trademarksand Antelco is a licensee of such Intellectual Property with limited rights.
- 9.2** The Customer must not use or apply to register any trademarks, branding, business names, company names, domain names or other materials likely to deceive or cause confusion or be deceptively similar or substantially identical to:
 - (a) Antelco's Intellectual Property or to any element of such Intellectual Property; or
 - (b) Antelco's suppliers' Intellectual Property or to any element of such Intellectual Property.

10. Force Majeure

- 10.1** Subject to clause 10.2, an obligation of a Party under this Agreement (other than an obligation to pay any amount) will be suspended during the time and to the extent that the Party is prevented from or is delayed in complying with that obligation by a Force Majeure Event.
- 10.1** A Party affected by a Force Majeure Event must give to the other Party particulars of the Force Majeure Event as soon as possible, and must take all reasonable steps to remove or mitigate the Force Majeure Event. The preceding does not require the affected Party to settle a strike, lockout, boycott or other industrial dispute. The affected Party must notify the other Party as soon as the Force Majeure Event ceases.
- 10.1** If a Party's obligation to perform any obligation under this Agreement is suspended under clause 10.1 for a period of more than 1 month, the other Party may, at its option, terminate an order. If a Party's obligation to perform any obligation under this Agreement is suspended under clause 10.1 for a period of more than 2 months, the other Party may, at its option, terminate this Agreement with immediate effect.

11. Definitions

In this Agreement, unless the context indicates a contrary intention:

Agreement means this document and any document that is incorporated by reference;

Antelco means Antelco Pty Ltd (ABN 50 008 062 708), and includes its administrators, successors in title, permitted assigns and substitutes;

Buy-back Price means an amount equal to 85% of the GST exclusive amount paid for the Products which are to be bought back;

Customer means the customer who places an order for Products and includes its administrators, successors in title, permitted assigns and substitutes; and if such named person is an individual, the executor(s) and heir(s) of the estate of that individual;

Default Rate means the rate 1% per month, calculated daily, on the amount owed by the Customer to Antelco.

Force Majeure Event means any event outside the reasonable control of the Party which prevents the performance of any obligation and which:

- (a) was not caused or contributed to by that Party;
- (b) could not have been prevented by reasonable precautions or remedied by reasonable expenditure by the Party which is seeking to rely on the event; and
- (c) could not reasonably be circumvented through alternate sources (including through business or service continuity planning);

GST has the same meaning as it does in the GST Act;

GST Act means the A New Tax System (Goods and Services Tax) Act 1999 (Cth) and associated legislation and regulations;

GST Group has the same meaning as is given to that term in the GST Act;

Indirect Losses means:

- (a) loss of profit, loss of revenue, loss of production;
- (b) loss of goodwill or business reputation;
- (c) any special, consequential or exemplary damages or losses; and
- (d) any other losses which is not directly caused by the relevant breach, regardless of whether such loss or damage was reasonably foreseeable or whether either Party had been informed of the possibility of such loss

and **Indirect Loss** means any one of the preceding, as applicable;

Intellectual Property means all registered and unregistered rights in patents, trademarks, copyrights, trade secrets, processes and know-how, software and algorithms, domain names and web presence, branding, advertising and promotional materials, inventions, discoveries or designs and all tangible and intangible representations and manifestations of such intellectual property;

Law means all applicable statutes, Acts, rules, regulations and by-laws current in South Australia, including all amendments and replacing laws;

Party means either Antelco or the Customer, as applicable, and includes its executors, administrators, successors and permitted assigns and substitutes; and Parties mean Antelco and the Customer;

Personnel of a Party means officers, employees, contractors and agents of that Party; and

Products means all the products listed in the Antelco Metric Catalogue, to the extent that such products are available and are not discontinued; and Product means any one of such products, as applicable.
